INTRODUCTION

The "Public Elementary-Secondary School Report, 1981-82" presents current enrollment and graduate data for all the public school administrative units in the Commonwealth of Pennsylvania. Included among these administrative units were area vocational-technical schools and the intermediate unit boards which operate special education programs.

There are several tables in this report that classify the enrollment and graduate data into various categories. In addition to these tables, the data is further supported by the use of trend tables, graphs, and interpretive narrative.

Pennsylvania's total public school enrollments for 1981-82 were 1,839,015. This represented a drop of 70,277 pupils (3.7 percent) from the 1980-81 figure, and a 22.4 percent decline from the high of 2,370,665 pupils reported in 1971-72. Elementary public school enrollments, which crested at 1,267,059 in 1969-70 have dropped continually to a figure of 903,342 for 1981-82, a decrease of 3.9 percent from the 1980-81 enrollment of 940,387. This trend should continue until 1985-86 when elementary enrollments are expected to start a general increasing trend.[1/] Public school secondary enrollments which peaked in 1973-74 at 1,137,660 have fallen to their present level of 935,673 reported for the 1981-82 school year, a decline of 3.4 percent over the 1980-81 figure of 968,905. This continued decrease in secondary enrollments is expected to continue through the 1990-91 school year.[1/]

In the ten year period from 1972-73 through 1981-82, the percentage of minorities enrolled in the public schools has increased by 2.4 percent.

INTRODUCTION

This report contains data on salaried personnel only. Data for employees paid on a per diem basis, interns and exchange teachers, to cite a few examples, are not included. The reader should keep in mind that information presented by position or major teaching assignment deals with people rather than positions. If an employee worked in more than one position or teaching assignment, the person was counted only in the position or teaching assignment in which a majority of his or her time was spent. In cases where the time was divided equally between two or more assignments, the chief school administrator selected one assignment. In all of the tables, other than Table 13 which deals specifically with part-time employment, all data are for personnel employed on a full-time basis in the schools.

In analyzing the data relative to level of education, it must be noted that the figures are not synonymous with years of higher education, but are codes used in the project. However, these averages can be used for comparative purposes. The codes upon which the averages are based are as follows:

0.0	No college
1.0	One year of college
2.0	Two years of college
3.0	Three years of college
4.0	Bachelor's degree
5.0	Bachelor's degree plus one year
6.0	Master's degree
7.0	Master's degree plus one year
8.0	Master's degree plus two years
9.0	Doctor's degree
10.0	Doctor's degree plus one year

Because of reporting difficulties and because salary contracts had not been settled at the time the reports were submitted, 1980-81 salaries or 1980-81 salaries with mandated increments were reported for all or a portion of the employees in the school districts of Cambria Heights, Danville Area, Eastern York, Fannett-Metal, Forest Hills, Line Mountain, Newport, North East, Norwin, and Southern Columbia Area; the area vocational-technical schools of Clearfield County, Mon Valley, and Northumberland County; and the intermediate unit offices of Bucks County and Central Susquehanna.

Source: The information necessary to update the 1980-81 Professional Personnel Record, Form DEAS-614, was obtained on the Professional Personnel Record -- Change Report, 1981-82, Form DEAS-615; the Professional Personnel Record -- New Employee Report, 1981-82, Form DEAS-616; tapes and punched cards.

The 124,925 full-time personnel employed in professional positions in the public schools of Pennsylvania at the beginning of the 1981-82 school year was a 2.8 percent decrease from the 128,518 employed in 1980-81, and a 2.7 percent decrease from the 128,338 employed in 1972-73.

Of the total staff, 6,309 were classified as administrative or supervisory personnel, 107,103 were classified as classroom teachers, 9,706 were coordinate services personnel and the position classifications of 1,807 were unknown. The percent each group is of the total staff is 5.1, 85.7, 7.8, and 1.4, respectively. These percents have varied very little over recent years as evidenced by the fact that the 85.7 percent for classroom teachers is only a 1.3 percent difference from the 87.0 percent figure in 1972-73.

INTRODUCTION

The "Public School Financial Statistics Report, 1980-81" is the current financial publication of the Our Schools Today series. Herein is presented detailed information concerning general fund revenue by source of funds and tax collection data of all public school districts; general fund expenditures of school districts, area vocational-technical schools and special schools with per pupil expenditures per average daily membership (ADM) for all school districts operating a complete program of kindergarten and/or grade one through twelve in the Commonwealth of Pennsylvania for the 1980-81 school year. Since the financing of public basic education in Pennsylvania is based upon reimbursement for prior year expenditures, all financial data gathered and published are one year later than that of the other publications of the Our Schools Today series. The data presented in this volume are actual as reported by the individual reporting entities and are shown by the use of tables, graphs and interpretive narrative and are further supported by trend tables for the past decade.

The general fund revenue from local sources to school districts rose 8.4 percent in fiscal 1981, to a high of $2,654,864,635 for the fourth largest percentage increase of the decade. A decade which showed an overall increase of 105.4 percent in revenue from local sources. Revenue from state sources steadily declined from 44.7 percent of total general fund revenues in 1971-72 to 39.3 percent in 1978-79, and then rising slightly (0.4 percent) to 38.9 percent in 1980-81. During this ten-year period, revenues from federal sources remained relatively stable as a percent of total general fund revenues, except for a sharp rise of 1.8 percent in 1972-73 and a decline of 0.8 percent in 1980-81. The single largest producer of revenue for the schools has consistently been local taxes, which escalated to $2,468,528,028 in 1980-81, an increase of 8.1 percent over the previous year.

TAXES

Table 2 lists the actual taxes collected as reported on the Annual Financial Report (DECO 500) of the school districts, and the computed equalized mills (mills on market value) as a representation of local effort for the period 1971-72 through 1980-81. It also shows what percent of total taxes each major type of tax has been. For each fiscal period the real estate tax stands out as the major generator of tax revenues for the operation of the public schools, averaging 76.6 percent of total taxes over the decade and ranging from 75.4 percent in 1972-73 to 77.6 percent in 1976-77. Monetarily, all types of taxes have increased over the 10-year period, due, perhaps, mainly to the inflationary trend of the times. However, as a percent of total taxes, all have remained fairly constant except for the per capita tax under the school code and the special taxes of Philadelphia and Pittsburgh which have shown a decline. Total taxes over this period increased 95.7 percent, while mills on market value, or equalized mills, experienced slight fluctuations but reached its lowest point of 21.8 mills in 1980-81. This measure, on the district level1/, is used to obtain the base earned for reimbursement (BER) as mandated by Act 59 (August 1977) under the basic instructional subsidy.

EXPENDITURES

The general fund expenditures by function represented have been compiled from the "Annual Financial Report" (DECO 500) of all administrative units mandated to file this report with the Office of the Comptroller of the Department of Education. The difference between total expenditures and current expenditures are the functions of capital outlay and debt service. Total expenditures have grown from $2,531,093,677 in 1971-72 to $4,702,238,083 in 1980-81, an increase of 85.8 percent; while current expenditures have grown over the same period from $2,192,348,191 to $4,232,122,244 an increase of 93.0 percent. The difference in these two increases reflects the modest increase of 40.0 percent in debt service and the fluctuating increase in capital outlay of only 24.3 percent. The expenditure for instruction has consistently claimed the lion's share of the expenditures for basic education, averaging 53.8 percent of the total; followed somewhat distantly by operation and maintenance of plant (11.9 percent) and fixed charges (9.2 percent), both of which have felt the effects of the inflation spiral. All other functions as a percent of total expenditures, with the possible exception of transportation and administration (5.5 percent and 3.5 percent, respectively, in 1980-81) seem rather meager and have remained relatively constant over the decade.
